Comments on Revision of G-15, Revised, "The Soviet Arctic".

REF : Chief, Geographic Division, ORR - Memo of 12 December 1958.

1. I/GM has reviewed the section on "Arctic Scientific Activities" which deals in part with activity which may be related to the Soviet guided missile program.

2. The following additions are suggested:

a. pl59. Mention should be made of the fact that launching sites for the high altitude rockets used in vertical sounding tests may be designed to launch guided missiles as well as rockets.

b. pl72. SIRAB No. 153 of 7 August 1958 (~~classified~~  
~~SECRET~~) noted that a glaciological station had been set up at Polyarnyy Ural.

3. The copy of the revision is returned herewith as requested.
